Carrying Cases

SOFT SIDED FITCH KITS

Soft Side Demonstration Cases With Foam Inserts

DAC has a complete range of standard size soft side cases, which can be fitted with a custom foam insert to fit your needs. The various dimensions are shown below. A pull up handle and wheels can be added to some of the cases to create rolling units. You can further personalize these cases with a printed or embroidered logo if needed (See Artwork & Graphics Section). Most any scenario can be met with these cases. However DAC can design and sew whatever you might need from large to small, from case to binder. If you can imagine it we can probably do it.
